DR. STRAUS, SURGEON DENTIST.

WOULD inform the citizens of Louisville and its vicinity, that he has located himself here permanently, for the purpose of practicing his profession in all its various branches, after the latest and most approved style. Having practiced for the last twenty years in New Orleans, I feel confident of giving satisfaction to every one who may honor me with a call. I would call the particular attention of the public to my mode of filling teeth, which is done in such a manner as to get twice the amount of gold into a cavity, as done in the usual way. I can, therefore, "guarantee "every tooth plugged in such manner to be as good as if never decayed.

Artificial teeth inserted—from one to an entire set—not only for beauty, but also for use, with or without suction, such as the case may require. Teeth extracted with as little pain as possible, and all other operations pertaining to dentistry.

armed with a revolver, bowie knifee and gun. A six pounder, also, formed part of the armament of the expedition. It was expected that a party of two hundred men would unite with the Albanians at some point in Harrison county. We presume that these men reached Brandenburg yesterday, Col. Ten Broeck's Prioress, which won it last where there was not much excitement prevailing, though on Monday there was to be seen about the town an unusual number of shot guns .beaten in another match race. The grand jury of Floyd | Jeffersonville, report : ounty, we understand, yesterday indicted John Rogers, Sylvester Deshon, Jerry and Tom Antle, and Joe Swinney, as the kidnappers of Horace Bell. The next step in the case will be a requisition from Governor Willard upon Governor Morehead for these men. If arrested, they will have to be tried for felony in New Albany. It is said that some of them are already heartily disgusted with their action in the matter.

Horace Bell was taken from Brandenburg of Sunday afternoon, to some safe and secluded place in Meade county, where he will be in the custody of the sheriff. The citizens of Brandenburg promptly paid the reward of \$500 offered for the arrest of Bell. The officers who made the arrest in New Albany sold their claim for \$200.

FIRE IN THE MOUNTAINS .- We learn from pa ngers over the Baltimore and Ohio railroad hat for several days the mountains between Altamout and Piedmont, and in the vicinity af New Creek Station, have been on fire. After night the sight is represented as awful, grand and imposing, the whole range of mountains, near which the railroad passes, being streaked and striped with ines of fire. No great danger is apprehended by those living in the vicinity. When the fire aproaches the fences surrounding the farms on the lowlands, the owners, "fire against fire," that is they set the woods on fire near the property which they desire to protect, and the fires meet. The woods are set on fire by hunters every season to drive the game towards the water ourses, and by chestnut gatherers, who burn the eaves from the trees to get the nuts more conve-

If it be said that Mr. Donglas and his friends could not conscientiously vote contrary to their honest judgment on the Lecompton question, and therefore ought not to be blamed for voting as they did, I answer, grant that they could, as I am willing to do. Let me ask in return, what measure of charity or toleration is now due to certain Democratic editors and citizens, who, viewing things as they do, cannot reconcile it to their consciences to coming the question fairly. It is not whether, in the naintenance and administration of our party displine, we should or should not tolerate honest do, cannot reconcile it to their consciences to com-mend and vote for Judge Douglas, since it would be contrary to the dictates of their best reason differences of opinion on these questions of policy; for such differences of opinion may always be looked for, and no sensible Democrat would think "To err is human, to forgive is divine." While for a moment of taking the negative of such a prop en feel that they are ever liable to err them-lves, they should remember to cultivate a spirit osition. The question plainly stated, is this of forbearance and forgiveness towards their fellows, and this admonition might well be com-mended to both Lecompton and anti-Lecompton Democrats just now. But forbearance and liberwhether or not it is proper to recognize as good and loyal members of the Democratic party, any who, on happening to differ with a Democratic administration on an important measure of public policy, set up an ill-natured and factious opposition to the administration, and thus knowingly and intentionally, give aid and comfort to the enemies Your clever, and as I take it, truly Democratic prespondent thinks it is monstrous that any ne should pronounce Judge Douglas a traitor his party, "because he has differed with the the party. An honest disagreement in opin-on among Democrats is one thing, and a factious, ot-headed opposition to a Democratic adminis-

Your correspondent in speaking of a portion of the party press, says that the following position is assumed, viz: "That those who take ground against Democrats may, and do honestly assumed, viz: "That those who take ground against the President's Lecompton policy, by that act forfeited their membership in the party, and are to

I ton in the manner he did, it was not right. I I will say it was equally wrong and unjust for the Judge and his Democratic followers, in and out of Congress, to charge as they did, Mr. Buchanan with aiding and abetting a monstrous and disgraceful fraud, because he thought the Lecompton constitution was the will of the people of Kansas, or at least, the only legal expression of that will. on any quarter or by any reputable number of Democrats, it has escaped my notice. No one has proposed to disown these Democratic members of Congress, and those Democratic citizens who were opposed to Mr. Buchanan's Kansas policy. But ng course on that question, have forfeited their standing as Democrats, and should be regarded nenceforth as enemies of the party. This is un-deniably true, though it is equally true that the great body of the anti-Lecompton Democrats are ot embraced in this category. That there is no wish or purpose on the part of Lecompton Democrats, to separate from or to cast off their brother Democrats who were honestly opposed to the President on the Kausas question and from such difference merely, is evident from the feet, that in many instances in the State elections since, anti-Lecompton Democrats have been placed on the same ticket with Lecompton Democrats. For instance, S. W. Start was a way-

	THE RESERVE AND ADDRESS OF THE PERSON NAMED IN

The Free Nigger Party in Kentucky

The editor of the Journal has called for a Know Nothing convention to be held in this city on the 22d of February next. The object of the con vention is to nominate a State ticket for Govern or, Lient. Governor, etc.

Line Whigs are invited to the resurrecting process. Not only these, but everybody who is op posed to the national Democracy, are invited to are opposed to the Democracy, and hence they will come under the editor's broad invitation. It will be a queer convention to be holden upon

Southern soil. It may be doubted, however, whether such a onvention can be gotten up in Kentucky. The editor of the Journal has given such bad political advice in days past, that he has lost his power over the popular mind. The people wont trust him again. He has gotten them into too many scrapes to be longer acknowledged as a reliable

For instance, the old Whig party, before the advent of Know Nothingism, had a strength of from sixty to seventy thousand in Kentucky. It was in the ascendant, and had been so for a quarter of a century. The editor of the Journal proposed a new party to take the place of the Whig. It was the Know Nothing organization. The editor joined it, and advised all others that he could influence to do likewise. The result is known.— The Whig party was wiped out, and all the best men in it either joined the Democracy or became Democratic sympathisers. The Know Nothings are now powerless in the State, and, by the help of all the odds and ends they can bring together, will still be too weak for a victory. The last trial of strength, upon McKee as their champion, showed that they could only rely upon about fiftyfive thousand votes in the State, while the Democracy have about seventy thousand. This gives

the State to the Democrats by fifteen thousand, with a fine prospect for a large increase. When, therefore, the editor of the Journal calls for an union of Know Nothings, Whigs, Abolitionists, Freesoilers, and all the odds and ends against the Democracy, he calls in vain. The Whigs who have gone over to the Democracy will stay where they are, and others will come over from the Know Nothing ranks as they see the Abolitionists, Preesoilers, etc., flooking to the standard of Sam. They went, as a general thing, stand such company. The result of the whole matter will be that the editor of the Journal will set up a genuine free nigger party in Kentucky, of which be will be the leader, and the Journal the organ. Things tend that way very decidedly, and there seems to

Of course such a party can have no strength in Kentucky. It will, therefore, look for support from the North. If it can so help the Black Re. that two other members of my family, who were afflictpublicans as to secure a President in 1860, the ed in a similar manner with myself, were entirely repatronage of a free nigger administration. He might go to Washington, or he might not, but in any event he would come in for a large share of the public plunder. He would be paid as a Southern man with Northern principles, and hence the pay would be large. No small office, and no small share of patronage would pay for such services. The Southern free niggerite would have to get

more than a Northern, as a matter of course. We see anxious therefore, to see the convention assemble in this city. We want to know who are sign members. We thought strings when Southerness spend of the Kaow Korking order, because you believed the order was a first the same of t assemble in this city. We want to know who are its members. We thought it strange when Southerners joined the Know Kothing order, because

[Correspondence of the Louisville Courier.] Who Shall be Our Candidate for Lieut. Governor? FLEMINGSBURG, Ky., Oct. 20, 1858.

In connection with this office several distinguished members of the Democratic party have been mentioned through the public press. Amongst others, Capt. Wm. E. Simms, of Paris, has been named. In our judgment, no man in Kentucky combines more of the elements necessary for a successful canvass than Capt. Simms, or is more highly qualified to discharge the duties that would necessarily devolve upon the incumbent of an office so responsible as that of Lieut. Governor .-No man in Kentucky has done more for the Democratic party than he, since the advent of Know Nothingism in our State. From the very first, when the political heresies of that mischievous faction threatened to override everything before on the Missouri and Mississippi rivers; also to all it; when many of the firmest veterans in our ranks quailed before the storm, and almost despaired of the ability of the Democratic party to meet successfully an enemy so covert in its attacks, and in-

cessfully an enemy so covert in its attacks, and insidious in its professions. Capt. Simms fearlessly met the foe in all its hiding-places, and with a zeal and ability not surpassed by any man in the State, rendered the highest services, not only to our party, but to our common country. During the last presidential canvass, as assistant elector for the State at large, we all remember the able and brilliant canvass made by him in the 6th congressional district. Everywhere he met Col. George W. Dunlap, one of the most talented and eloquent of the opposition orators in the State, and how gloriously he bore our banner Gen. Thomas Strange and voted down. Hon Gen. Thomas Strange and voted down. Hon. John C. Mason then proposed a reconsideration of the vote, and the resolution was carried by a tremendous majority.

This resolution gives to each county in the State one delegate for every one hundred Demoan kentucky. Me is a lawyer by profession, offine attainmennts, and a fine parliamentarian. He represented his county in the Legislature of Kentucky in the session of '49 and '50, and was chairman of the committee on federal relations at the time Mr. Clay made his great report embracing the compromise measures of that session of Concress.

After the presidential canvass was ended, the battle fought and won, Capt. Simms did not doff his armor and retire from the contest. He then assumed the duties of editor of the State Flag, in the desperate contest in the 5th congressional district between Clay and Hanson, and from the powerful articles emanating from his pen which appeared in its columns, rendered the highest services to his party, in redeeming that time-honored district of Know Nothingism. He has rendered other services to his country than those of a polit-ical character. When during the Mexican war ical character. When during the Mexican war Kentucky was called upon for her quota of soldiers, Capt. Simms by his energy and eloquence, raised, in his native county (Bourbon) a company that was attached to the 3rd regiment of Kentucky volunteers, in the war with Mexico. Every man of his gallant company who died while in the service, was brought home by him from the City of Mexico at his own private averages and having in Mexico at his own private expense, and buried in the cemetery at Paris. We do not refer to this noble act of Capt. Simms, as any reason why he should receive the nomination of our party; we only refer to it as an evidence of the noble heart and character of the man. He is the very man for the place—deserves it, and Northern Kentucky in the place—deserves it, and Northern Kentucky in the place—This the other considerant is supported by the place. our judgment, is unitedly for him. This, the 9th Congressional District, we think is for him first and last. If we would strengthen our party, and lay the foundation of its success deep in our next State election we should select just such men for

The Democracy here conceas to Souther a Kentucky the candidate for Governor, and he will no doubt be an old line Democrat. In turn, we claim the candidate for Lieut. Governor, and Capt. Simms is our choice, and should he be put upon the ticket with some tried and true Democrat in the south end of the State, we will send him up majorities from the northern counties that will have the form the hearts of the convention the last banish from the hearts of the opposition the last hope of success in our proud old Commonwealth. A DEMOCRAT.

PAPER MONEY IN St. Domingo .- The effect of an over issue of paper money in depreciating its value is very strikingly illustrated in St. Domingo. The government has issued about fifty five and a quarter millions of dollars in paper. The value of it at the present time is just one cent on the dollar, or as near being entirely worthless as anything can be. The government, through its reckless abuse of its credit, has entirely destroyed it, and its ability ever to pay its debts.

LOUISVILLE, KY.

SOUTH SIDE MAIN STREET, BOTWEEN SIXTH AND SEVENTH STREETS,

THE attention of dealers in Drugs and Medicines, and persons afflicted with Chilis and Fever, or Ague and Fever, is respectfully invited to this celebrated medicine, which has justly obtained a high reputation throughout the country, and for many years has maintained its superiority over all other remedies, as a safe, certain, speedy, and permanent cure for Chilis and Fever, or Ague and Fever.

The public may rely upon the fact that it is entirely vegetable in its composition, and made from the best, purest, carefully selected reliable articles, and is always prepared by the proprietor in person, and, therefore, he can warrant it uniform in quality.

the does not produce Headache, Giddiness, Buzzing of the Ears, or any of the unpleasant effects which so frequently attend the use of Quinine, or other remadies, but may be given in all cases, and under all circumstances whatever, to Females, Infants, and all persons who are debilitated, or have the most delicate constitutions, without he least apprehension of any injurious or even unpleasant effects.

Practitioners of medicine who have not prescribed it, and afflicted persons who have not used it, are respectfully nivited to give it but a fair trial, and they will then be convinced of its great superiority over other remedies and that it possesses all the virtues claimed for it.

It is not only perfectly safe and innocent in its effect, but in no case whether a Tonic is required and proper to

Chills and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out.

This medicine has become a staple remedy, and for years has been extensively used throughout the States of Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, Illinois, Iowa, Wisconsin, Ohio, Indiana, Nebraska, Pennsylvania, Michigan, and California, and more lately in Kansas Territory, and has permanentily cured near 2,000,000 of cases in all its varied forms and conditions, many of which were from one to three years' standina, and had resisted all the usual remedies known in the country, and in no case did it tail to make a perfect and permanent cure where the directions were properly followed. Such is its invariable success that it has gained the confidence, favor, and patronage of a large number of respectable practitioners of medicine throughout the country, who prescribe and administer it in preference to Quinine and other remedies.

Persons living in districts of country subject to Chills and Fever, Ague and Fever, or Billious Fever, would do well to keep a constant supply of this invaluable remedy always on hand.

The proprietor has in his possession a large number of certificates and other testimonials from persons who have used this medicine, as well as from Physicians, Druggists, Apothecaries, and other dealers in medicine, attesting its superior virtues as a curative in Chills and Fever, or Ague and Fever; and he could obtain many theusands more, or enough to fill a large volume, but does not deem it necessary, as it is already extensively and favorably known to the public generally.

From New York.

New York, Oct 26.—The Herald's Washington correspondent says Senor Mata, the representative of President Juarez and the constitutionalists, has left for Vera Cruz. Before leaving he was admitted to a private interview with the President, and another with Gen. Cass. The chief point of desire on the part of President Juarez is to obtain some pecuniary aid from our government, and Senor Mata was given to understand that our government could take no part in the present contest in Mexico, but should the constitutionalists succeed and evince a disposition to arrange the pending questions between the two countries and the claims of American citizens in an amicable and just spirit they would find on the part of this government every disposition to afford them such moral and material aid as was in its power.

The points on which such a negotiation might turn are a railroad route to some port on the Gulf From New York. turn are a railroad route to some port on the Gulf of California, a liberal commercial treaty, including reciprocity in certain articles on the northern and California frontier, and a treaty guaranteeing the neutrality of the Tehuantepec route. Senor Mata will return here before the close of the session, so as give the President an opportunity to request Congress to act before spring.

Wright, our minister at Berlin, has taken the extreme ground attributed to him with regard to naturalized citizens returning to their native country, and being required to perform military duty, it is not likely he will be sustained. While the United States will protect to the fullest extent its citizens in what is right, it cannot take upon itself to relieve naturalized citizens of the debts or the obligations they owe before coming to this country.

The special correspondent of the Tribune says
Senator Hammond has united in sustaining Douglas. The real ground of the present hostility of the administration is, that a reconciliation was arranged between Douglas and Buchanan after the adjournment of Congress, through the intervention of Senator Gwin and others, which Buchanan alleges was violated by the bad faith of Douglas.

Some of the foreign ministers have been in communication with the State Department regarding Mexico. It appears that not only Spaniards, but foreigners generally, were subject to severe prosciption at San Louis Potosi and other places.

Mr. Reed will return home from China leisurely, by the route of British steamers. It is rumored here that he will obtain the mission to England as an acknowledgment of his success in the East. The offer of the Society Islands to this country by certain native chiefs through our Consul at Tahiti has not yet bean noticed by the Administration. The State Department has received a communication from other chiefs or parties objecting to the cession of the Islands. The proposition is not regarded as of much importance; besides, with their almost barbarous population, to subject the island to our government is considered doubtful policy.

The statement made in certain newspapers that Sir Wm. Gore Owsley had submitted drafts of a treaty has been submitted, nor has the Government expressed itself upon the subject. If Mr. Wright, our minister at Berlin, has taken the extreme ground attributed to him with regard to naturalized citizens returning to their native country, and being required to perform military duty, it is not likely he will be sustained. STOMACH OR LIVER,

STOMACH OR LIVER.

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bieeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on soricity scientific principles after the manner of the celebrated Holland Professor, Borchave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTIOE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTION: The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Borhave's Holiand Bliters a fair trial. One bottle will convince how infinitely superior it is to all these imitations.

Solid at \$1 per bottle, or six bottles for \$5, by the SOLE PROPRIETORS,

THE RIVER was falling a little yesterday, with three feet eight inches water in the canal. The weather was cloudy and warm until noon, when it cleared off, and the prospects of a good rise are, tike the clouds, once more dissipated.

Our dispatcles from Pittsburgh yesterday morning were very unfavorable for a rise, as the river was reported failing, with only four feet water in the channel. The recent rains, however, must make a rise, and no doubt the next report will confirm it.

At Cincipnati resterday, the river was slowly swelling from the effects of the late rains, and the officers of the mail boat report all the tributaries rising a little, including the Hocking, the Kanawhas, Muskingum and the Miamis.

STEAMER H. D. NEWCOMB SNAGGED AND SUNK-Boat a Total Loss-Passengers and Crew Safe.—
By a dispatch to the Mossrs. Benedict, from Memphis, yesterday morning, the loss of the splendid packet H. D. Newcomb, is announced. She encountered a snag in the Mississippi, on Monday, at the foot of island 21, which caused her to sink almost immediately, with her bow in seven feet water, and the stern in twenty feet water. The chimneys had fallen overboard, and the boat was breaking in two just aft of the boilers.

The St. Louis steamer Chempion came down

The St. Louis steamer Champion came down soon after, and took off the passengers of the boat and a portion of the deck load. The boat New Londoner and others reached Memphis yespassengers, officers and crew were saved, and we presume the baggage, books and cabin furniture

The H. D. Newcomb was one of the finest and most popular boats afloat. She was in charge of Capt. McGill, who owned one fourth of her, an was making his first trip of the season, startin from Cairo to New Orleans with a cabin full of passengers and a load of freight, including the freight from here, shipped on the John Gault, some 2,800 barrels of flour from Evansville, and other items, including a lot of 66 mules and those horses shipped at Hickman. The latter were insured here, and the boat was insured in our local offices to the amount of \$50,000. She was three years old, and during the past summer \$5,000 had been expended on her in repairs. It was thought the boilers would be saved.

We learn that Southern freights have been again advanced at Cairo. The rates on Monday were 35 cents for pound freights to New Orleans, flour 50 cents, pork 65 cents, and whisky 75 cents per barrel.

The Kentucky is the regular mailboat for Chacanati to-day. She starts at 11 o'clock, in charge of Captain Hildreth, with the veteran Byington in the office.

MAN DROWNED-Two OTHERS HURT .- On the MAN DROWNED—Two OTHERS HURT.—On the trip of the Superior, Sanday, while attempting to land the yawi at Warsaw, a deck hand of the name of Thos. Statterly was killed, and the second mate, Tim Larey, and John Nelson, a hand, were slightly injured. The wind was blowing on shore, and the boat backing to keep off the bar, when the yawl was caught under the wheel. Statterly was instantly killed, while the other deck hand escaped by olimbing up into the wheelhouse.—Larey, the mate, was struck on the back by a backet. Slatterly leaves a wife and child in Cin-cinuati. He lost a brother on the Strader last meason. The mate was conveyed to the hospital.

We see it stated in the Vicksburg Whig that arrangements have been made by the mer-chants of that city with the steamers B. L. Hodge and Republic, to take cotton down from that city at sweaty-five cents per bale, and up freights at corresponding rates; and that those merchants will stand by those beats.

The Harrison Bridges is advertised for Green river Saturday.

detained two or three days, to procure a new doc-tor engine. The one she had in use was too small. The Red and Ouachitta rivers are reported very low, with quite a number of boats aground. The Bluff City and W. W. Farmer were aground

but was falling again at the last dates.

Prolific Boar.—During the late trip of the John Gault to this port, a lady passenger gave birth to a fair garl. Capt. Bance, with his usual gallantry, on ascertaining that his passenger was sick, had the boat stopped at Amsterdam, where the services of a doctor was secured, and the lady and the haby were soon siter as well as could be and the baby were soon after as well as could be expected. The John Gault is truly a prolific boat, this being the third birth on the boat within a few months. The lady is a resident of New Albany. The following in reference to the disaster to the Ben Franklin, two copy from the Memphis Avalanche:

Bes Franklin Burner.—Yesterday morning a private telegraphic dispatch was received in this city, stating that the fine steamer Ben Franklin, of the New Orleans and Memphis packet line, was burned Thursday night, together with her entire cargo, among which were 3,057 bales of cotton, opposite the town of Ashton, a short distance above the city of Vicksburg. The Franklin left this port last Monday, taking out a large freight and seventy five passengers. She carried 2,150 bales of the cotton from this city. The dispatch reports no lives lost. The Franklin was insured in a Louisville office to the amount of \$23,000. We understand that the larger portion of the ireight and cotton is insured in the offices of this city.

Cairo, reports the Lower Ohio falling, with only 30 inches water at Cumberland, and but an average of only three feet on the other shoal bars above. Deuse fogs had prevailed on the river, and the John Gault was detained 24 hours in fog.

She arrived Monday night, late, and met the ferry, Adelaide, with the New Albany patriots on board at Tobacco Landing, just above Brandenburg, at 11 o'clock last night.
